Yes, let's do this Friday. If not we can't do till September. And I know timing is important for the EPA folk. We can always drag out the FGAC meeting for 30 minutes if that is easier for the EPA team.

Thank you,
Bryan

Good Morning all I would be more than happy to facilitate- is this going to happen this Friday? Just FYI our FGAC Meetings start at 9:30 and is over at 10:30. Please let me know if we are planning on doing this on Friday July 26th and I can plan from there. Thanks

Thank you, RJ! I have cc'd Karen so she can help facilitate. Ideally we would give you 15 to 30 minutes to present and answer questions.

Thank you,
Bryan

Subject: Friday morning

ACC has invited us to present on Friday morning to its federal government affairs committee the demo of our new interactive website and what we plan for it in the future. They meet between 9:30 and 11 on Friday morning. I would like to take them up on this and this will help with their members using this site and for ACC in general to advertise that there's a new tool for ensuring everyone knows where these PMNs are at in the system. I would like for Nancy and the appropriate folks from OCSPP to get together to put together a presentation just kind of like what OCSPP did last week for me but like a little more 101. I think I would like to attend too if I can. This is a great opportunity.

Ryan Jackson
Chief of Staff
U.S. EPA
